

Engage Candidates with a TotalRewards Experience

CandidateRewards™ – a fully customizable and interactive closing tool proven to increase offer acceptance rates.

Your recruiting efforts just got a boost!

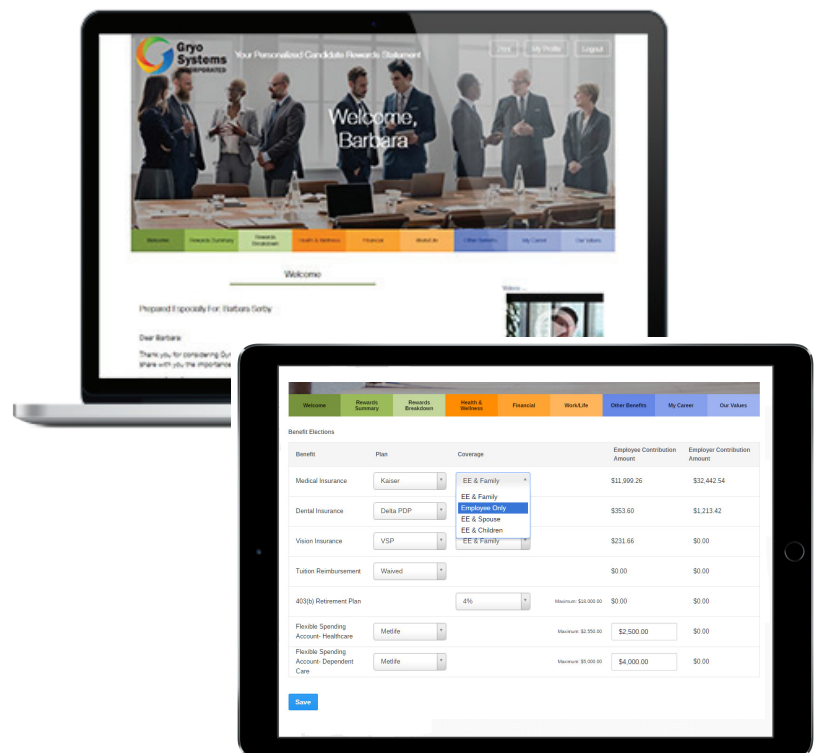

CandidateRewards™ goes beyond emailed PDFs offering candidates a dynamic picture of their **total compensation**.

In one minute, recruiters can set up candidates with a personalized web portal that includes your entire EVP. Your candidates will get to view benefit packages and see the monetary value that it brings them. **Your \$50,000 cash offer just became a \$75,000 total compensation package.** They will also learn about your non-monetary rewards such as culture, career opportunities and more.

CandidateRewards™ is a mobile first platform engineered to give your candidates a great presentation on their phones and computers.

With cloud-based features that will accelerate your recruiting process, boost your offer acceptance rates and cut costs for your talent acquisition team, CandidateRewards™ gives you an advantage in the most competitive job-market in decades.

Stop presenting a direct pay narrative and switch to TotalRewards today.

Visit CandidateRewards.com today to learn more and get started with a demo of the CandidateRewards™ platform.

Features of the Platform:

Recruiter Intelligence*:

We use behavior analytics to help recruiters gain better insight to their candidates by reporting on how candidates interacted with the candidate rewards portal and where they spent their time.

My Benefits*:

With the My Benefits Feature, Candidates can select from the real benefits that will be available to them as employees. This gives your candidates full transparency and communicates the full investment you are making in them. The value of employee versus family coverage is often a difference of over ten thousand dollars, now you can capture and communicate that value in the privacy of software.

On Demand Candidate Statements:

In less than 60 seconds Recruiters can create statements and invite candidates to a personalized candidate rewards experience. Within minutes your candidate will have an invitation in their inbox that they can view where ever they are, on their phone, tablet, or laptop computer.

Employer of Choice Messaging:

Strengthen your employer brand by using your images and video. Use our company insider LinkedIn API for social proof that you are the employer of choice.

*Enterprise version only

"After using CandidateRewards™, we're saving six-figures annually."

- Michael Krug, Hoag Hospital

Why Use CandidateRewards™?

- Reduce candidate time-to-close
